

**Dr. Google speaking!
How may I help you?**

Pavlinka Kovatcheva

E-mail: pkovatcheva@uj.ac.za

Sciences Librarian, University of Johannesburg

10th Southern African Online Information Meeting, CSIR

4 August 2010

Dr. Google

Visitation hours: **24/7**

When you get sick, you visit the doctor, so he can help you get better.

He will perform a check-up, prescribe the right medicine or suggest how to treat the symptoms.

You will take the prescription to the Pharmacy.

Then you hope the medicine will have a fast effect on you

You seek out Google to find information on anything that pop-up in your head

Dr. Google can help you find information about your problem, or give you a “pathfinder” to trace the information.

Dr. Google offers many ways to cure your needs. Let’s find out which will work.

Is Google Making Us Stupid?

SLA Conference, June 2010

.... Research that once required days in the stacks or periodical rooms of libraries can now be done in minutes. A few Google searches, some quick clicks on hyperlinks, and I've got the telltale fact or pithy quote I was after.....

Nicholas Carr

The Google logo is centered on the page. It consists of the word "Google" in its signature multi-colored font: 'G' is blue, 'o' is red, 'o' is yellow, 'g' is green, 'l' is blue, and 'e' is red.

Prescription Tips:

Don't have a book in the Library?

Your user is desperate?

Find a solution with Google Books!

Create My Library!

<http://books.google.co.za>

Google books

- Search for books of interest
- Log-in to your Google account
- Create My Google Library

- Add books to your library
- Customise with reviews and ratings
- Share your library with others

The screenshot shows the Google Books interface. At the top left is the Google logo. Below it is a search bar containing the text "the future of nuclear energy in south africa". To the left of the search bar is a navigation menu with "Everything", "Books" (highlighted in blue), and "More". Below the menu are links for "Browse Books", "My Library", "The web", "Any view", and "Any document". The search results show two book entries. The first entry is "The future of nuclear power - Page 70" by Geoffrey Greenhalgh, published in 1988. The second entry is "The future of nuclear power - Page 189" by J. N. Lillington, published in 2004. A dropdown menu is open over the second entry, showing options: "Favorites" (checked), "Reading now", "To read", and "Have read", with a "Save" button at the bottom. Two blue arrows point to the "Books" menu item and the "Add to My Library" dropdown menu.

Transliteration is the process of phonetically converting a word written in one script into another.

Google Transliteration

Last updated April 8, 2010 - ★★★★★ 456 Ratings

Google Transliteration allows you to type phonetically using Roman characters. Simply type a word the way it sounds in English and Google Transliteration will convert it to its local script. We currently support 22 languages: Amharic, Arabic, Bengali, Greek, Gujarati, Hebrew, Hindi, Kannada, Malayalam, Marathi, Nepali, Oriya, Persian, Punjabi, Russian, Sanskrit, Serbian, Sinhalese, Tamil, Telugu, Tigrinya and Urdu.
